Can anyone point me in the direction of a user manual. I have searched the internet but cannot find what I want. Thanks Peter If it is a Worcester Bosch it could be SE the code not 5E this means it needs a service, this can be reset manually. I have no other indication of type or make. I was just after a manual. This is the manual I have for it.

I reality it is a Worcester Bosch, 30 CDI re badged I think This is the equivalent to the British Gas version. There cold be subtle differences on the hole should be roughly the same and parts are the same. This is a feature of certain CDi boilers. The code is activated after 2,324 of burner hours and serves as a reminder that the boiler requires a service every 12 months.
